Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Simons (US 752,004). Simons discloses a carrier device for a vehicle 1 with handlebars 2 with a main strap member having a central loop 6 and a pair of opposed auxiliary loops 8, and a plurality of sling strap members 4 and 5 with opposed ends connected to opposed surfaces on the central loop 6.

With respect to claim 2, the sling strap members 4 and 5 are connected to one another proximate their midpoint with a strap 7 that may be located anywhere between the ends and midpoints of the straps 4 and 5 (column 2, lines 66-70).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 3-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Simons (US 752,004) in view of Coolidge (US 599,119). Simons does not disclose three sling strap members attached to the central loop. Coolidge teaches a carrier for use on a vehicle with handlebars that has a central loop D, two supports for attachment to the handlebars, and a plurality of over three sling strap members connected to the central loop (figure 1). It would have been obvious to one of ordinary skill in the art at the time of invention to include more than three sling strap members on a carrier device to provide additional support for articles in the carrier.

With respect to claim 4, the primary reference Simons suggests the use of leather (page 2, column 1, lines 28-31) for the strap members, which is a flexible material.

With respect to claim 5, the primary reference suggests the use of leather for the strap members, which is a resilient material.

With respect to claim 6, the primary reference suggests the use of leather for the strap members, which is a flexible and resilient material.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Crago (US 6,550,654), Wall (US 610,251), Summers (US 4,900,204), and Moore (US 5,340,004) all disclose similar inventions.
